77830 Bühlertal

VISUS Technology Transfer GmbH
Universitätsstr. 136
44799 Bochum

windream GmbH
Wasserstrasse 219
44799 Bochum

All applications which are able to archive their content on a file-share can also use the iCAS as archive backend solution.

As iCAS is compatible with industry standards in long term archiving (e.g. EMC Centera® or NetApp Snaplock®) nearly all applications being certified for these standards, can use iCAS as archiving platform too. For questions regarding compatibility with specific software products please contact sales@iTernity.com.

= supported via iTernity Webservice API

= supported via iTernity-File-System-Gateway (iFSG)
